A Management Control System (MCS) is a system. A system can be described as a series of steps or phases consisting of an input phase, a processing phase, and an output phase. A control system adds measurement, analysis and reporting phases to the system. Accounting methods are often implemented and evaluated as part of a management control system.

Lesson 1.1 - The New Paradigms of
Management Control Systems
Introduction Management control is a
must in any organization that practices
decentralization. One view argues that
management control systems must fit
the firm's strategy. This implies that the
strategy is first developed
